

Your Partner in Digital Printing Innovation

**Partnering with OEMs,
Integrators, Converters &
Industrial Manufacturers**

beyond color

our digital solutions

UV & UV-LED PIEZO INKS

- Direct-to-Object
- Labels & Packaging
- Industrial Printing
- Commercial Printing

AQUEOUS PIEZO INKS

- Corrugated Packaging
- Commercial Printing
- Coding & Marking
- Security Printing

THERMAL INKJET INKS

- Mailing & Addressing
- Package Coding & Marking
 - Pharmaceuticals
 - Personal Care
 - Health Care
 - Security & Brand Protection

PRIMERS & COATINGS

- Overprint Varnishes
- Specialty Coatings

innovation engineered. performance delivered.

Digital printing is transforming manufacturing, packaging and product decoration by enabling greater flexibility, customization and productivity. Wikoff Digital helps customers unlock new opportunities through advanced inkjet technologies, innovative chemistry, and collaborative engineering.

We partner with OEMs, hardware integrators, converters, and industrial manufacturers to develop high-performance digital printing solutions tailored to each application. Whether launching a new platform, enhancing an existing press or solving a complex printing challenge, Wikoff Digital delivers the chemistry, expertise, and technical support to help you succeed. This reflects the emphasis on OEM partnerships, technical expertise, and digital print innovation found throughout the Digital portfolio.

WHY WIKOFF DIGITAL?

- Complete Digital Printing Solutions
- Custom Formulation Expertise
- Application Development
- OEM/Integrator Partnerships
- Regulatory & Compliance Support
- Technical Service & Process Optimization
- Made In The USA

Bolt-On digital solutions

BRING DIGITAL PRINTING TO YOUR EXISTING EQUIPMENT

Digital transformation doesn't always require replacing your press. Wikoff Digital partners with leading hardware integrators to develop custom bolt-on inkjet solutions that add digital capability to existing production equipment such as flexo, offset and gravure presses as well as finishing equipment.

Whether installed in-line, near-line or off-line, these systems deliver personalization, variable data, coding and serialization while maximizing your existing equipment investment.

APPLICATIONS

- Variable Data Printing
- Product Personalization
- Coding & Serialization
- Security Printing
- Direct Mail
- Labels & Packaging

our approach

discover

Understand your process and production goals.

engineer

Select the ideal printhead technology, ink chemistry, and integration partner.

implement

Deliver a complete solution backed by technical expertise and ongoing support.

designed. developed. manufactured in the USA.

At Wikoff Digital, innovation starts at home.

Our products are developed and manufactured in the United States, providing customers with dependable supply, responsive technical support and the flexibility to create custom solutions for demanding digital printing applications.
